

MIT INTERNATIONAL SCIENCE AND TECHNOLOGY INITIATIVES (MISTI)

MIT-Germany - University of Stuttgart Seed Fund

Seed funds for Germany promote cutting-edge research collaborations and help to deepen partnerships between MIT faculty and researchers and their German counterparts.

MIT-Germany – University of Stuttgart Seed Fund

Launched as an initiative in 2015 through the MIT-Germany - University of Stuttgart cooperation, the fund provides faculty and research scientists at MIT and the University of Stuttgart the opportunity to jointly apply for seed grants. The maximum award is \$25,000.

Open to all disciplines, priority will be given to projects that:

- propose a balanced exchange between MIT and University of Stuttgart participants
- have at least one Junior Researcher as a principle investigator
- involve students in the project

The MIT-Germany - University of Stuttgart Seed Fund is a part of MISTI Global Seed Funds. All general [MISTI Global Seed Funds criteria](#), application and evaluation procedures apply. This year's application deadline is September 16, 2019.

Finding an MIT Collaborator

Need help finding an MIT professor or researcher to collaborate with? These links will help you find faculty connections – web.mit.edu/research and global.mit.edu/research – and the MIT-Germany team is also happy to help identify potential collaborators and make introductions to MIT faculty. Please contact Program Manager Justin Leahey (jleahey@mit.edu).
