70569 Stuttgart

Language: English

Impulses & Speakers

Ecosystem Innovations in the Innovation Ecosystem

Increasing the innovative power of the overall system through ecosystem innovations - that is the central mission of the ARENA2036 research campus. How do you develop such an innovation ecosystem in co-creative collaboration with interdisciplinary partners from science and industry?

Dr. Clemens Ackermann,
Deputy Managing Director & Research
Coordination, ARENA2036

A Change in Mindset: Promoting Research Based Innovation

Many groundbreaking discoveries are made at universities. Transforming scientific ideas into innovative applications is not the primary goal of the higher education system. How can we encourage a change of thinking?

Dr. Andreas Wahl, Postdoctoral
Researcher, Institute of
Entrepreneurship and Innovation
Science, University of Stuttgart
